

We have been very busy these past few months with many new projects underway and now quite a few projects heading out for tender to be built later this year. It's always very rewarding to see the final product on the ground. Do you need a landscape architect on your design team for that next tender or project? Contact us at admin@designwell.net.au or ph 1300 700 413.

PROJECT NEWS

designwell is highlighting the progress of one of our projects under construction:

Eden Hills Primary School

Eden Hills continues with construction on the landscape, implementing an interactive natural play area and outdoor learning environment. The new administration buildings look great and the natural play area is looking very exciting. **designwell** is very keen to see the outcome when completed in early Sept.

INTERESTING FACTS

The Effect of Nature – nature will always take over what's unmaintained. This is an image of abandoned buildings in Taiwan with the trees slowly overtaking the unnatural concrete buildings.

CONTINUING PROJECTS

Salisbury East High School

The Salisbury East project has completed the conceptual stage and has moved into design documentation. This is an exciting re-development for the school that includes a new creative arts building and revamped school grounds. **designwell** has complimented the new building with an outdoor stage and grassed amphitheatre for performances. Other landscape opportunities have included a series of outdoor classrooms to compliment the school's curriculum and to be specific tools for their education programs, an Anzac Memorial featuring a Lone Pine and feature soldier sculptures and resurfaced courts for basketball and netball.

Resthaven Port Elliot

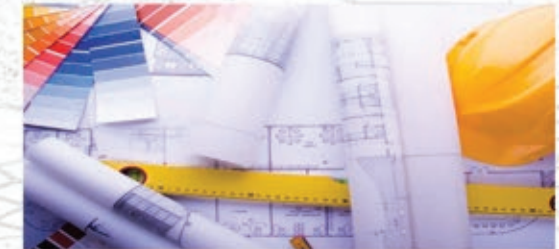

Resthaven has a brand new facility being designed in Port Elliot. **designwell** has completed initial conceptual designs and we are moving into design documentation. This new facility design was based on feedback from previous facilities therefore it is expected to really grasp the needs of the residents and staff with a greater level of best practice.

ANNOUNCEMENTS

Government of South Australia
Department of Planning,
Transport and Infrastructure

designwell received its Department of Planning, Transport and Infrastructure (DPTI) **pre-qualification** earlier this year. This means **designwell** is able to tender for many projects that require a pre-qualification as part of their requirements. The pre-qualification requirements are rigorous assuring that only companies fit for undertaking DPTI's projects are approved.

Tara Graham Cochrane's knowledge in designing **Dementia Enabling Outdoor Environments** saw her be invited to teach at the **International Dementia Design School** in Sydney in June and she is currently touring Australia teaching alongside dementia environment expert Richard Fleming at a series of government funded seminars on **Designing for Dementia in Acute Care**. The Adelaide 2 day seminar will run from Sept 16-17.
